### Tree Preservation

Trees play a very important role and add many benefits to our environment by helping to enhance streetscapes, reduce climatic extremes, improve air quality, and provide habitat for wildlife.

Under the State Environmental Planning Policy (Vegetation in Non-rural Areas) 2017 (Vegetation SEPP) and the Liverpool Development Control Plan (Liverpool DCP), permission is required to remove certain trees and other vegetation as defined within these documents.

The Liverpool DCP defines a tree as being

- any perennial plant that has a:
  - Height greater than 3.5m and/or
  - Canopy spread of greater than 4m and/or
  - Primary trunk diameter greater than 400mm when measured 1m above the existing ground level of the tree.
- Any tree that forms part of a heritage item or is situated within a heritage conservation area.

Trees that are exempt from requiring a permit for pruning or removal and other relevant information relating to tree management in Liverpool can be found at the following web link

<https://www.liverpool.nsw.gov.au/environment/trees> or, you can call Council's Customer Contact Centre on 1300 36 2170.

The Vegetation SEPP works together with the Biodiversity Conservation Act 2016 to create a framework for the regulation of clearing of native vegetation in NSW. Further information can be found at the following web link: [www.planning.nsw.gov.au/Policy-and-Legislation/Environment-and-Heritage/Vegetation-SEPP](http://www.planning.nsw.gov.au/Policy-and-Legislation/Environment-and-Heritage/Vegetation-SEPP)
