

## Macquarie Street Upgrade 2024

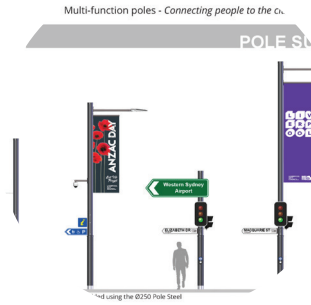

This project follows the successful upgrade of Macquarie Street Mall in 2016, and seeks to continue the enhancement of pedestrian amenity, in line with the recently completed Liverpool City Centre Public Domain Master Plan.

The main objectives of this project are to:

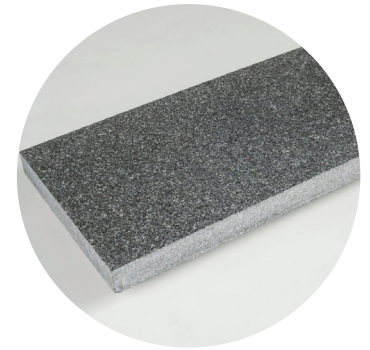

- Improve the paving and pedestrian surfaces
- Improve safety and comfort for people
- Improve local accessibility and connections
- Enhance the public domain atmosphere
- Help increase footfall and capacity for trade for businesses
- Upgrade pedestrian crossing, including thresholds and line marking
- Address cross-street circulation paths
- Enhanced interface with Scott Street to the south.
