

Note before filling this form:

A Road Occupancy Permit is required for any activity likely to impact on traffic flow, even if that activity takes place off-road.

If required to carry out any intrusive digging in the public road or footpath, a separate application is also required for a **Road Opening Permit**. Separate applications are required for each road occupation.

Council requires minimum ten (10) working days to assess the application and to provide approval following satisfaction of all Council requirements.

Council recommends your application be lodged online by Council's [ePathway Portal](https://mycouncil.liverpool.nsw.gov.au/ePathway/Production/web/) (<https://mycouncil.liverpool.nsw.gov.au/ePathway/Production/web/>).

Notes: Roadwork Speed Limit

Use only R4-212 Roadwork Speed Limit Sign which is adapted with a hinge and lock to hide the sign face when not in use.

Extract Item 13 Schedule 4 RTA's Delegation to Councils Regulation of Traffic 23 February 2009

13. Where a council or its sub-delegate wishes to exercise a function in respect to a "Roadwork Speed Limit" traffic sign (Speed Series (R4) Sign No. R4-212 contained in the Roads & Traffic Authority's *Traffic Signs Database* located on its internet website, the following conditions apply:

- 1) When the installation period of a 'Roadwork Speed Limit' sign is to be for 6 working days or less:
 - a. authorisation of the use of the 'Roadwork Speed Limit' sign must be carried out by council or a sub-delegate who holds a current Traffic Control at Worksites certificate issued by the Authority; and
 - b. the nearest office of the Authority is to be notified in writing of Council's intention to implement a roadwork speed limit prior to works commencing; and
 - c. the nearest Police Station is to be notified in writing of Council's intention to implement a roadwork speed limit prior to works commencing.
- 2) When the installation period of a 'Roadwork Speed limit' sign is to be for more than 6 working days:
 - a. authorisation of the use of the 'Roadwork Speed Limit' sign must be carried out by council or a sub-delegate who holds a current Traffic Control at Worksites Certificate issued by the Authority, and
 - b. the nearest office of the Authority is to be notified in writing of Council's intention to implement a roadwork speed limit 7 days prior to works commencing; and
 - c. the nearest Police Station is to be notified in writing of Council's intention to implement a roadwork speed limit 7 days prior to works commencing.
- 3) The need for a 'Roadwork Speed Limit' sign shall be determined in accordance with the document, "Traffic Control at Worksites" Version 4.0 dated June 2010 (RTA Publication No 10.164B) issued by the Authority;
- 4) 'Roadwork Speed Limit' signs shall be installed in accordance with the "Traffic Control at Worksites" document (as already referred to);
- 5) Records maintained by a council and its sub-delegate in respect to a 'Roadwork Speed Limit' sign must include:
 - a. council's or its sub-delegate's written authorisation of the installation [The sub-delegate's Traffic Control at Worksites Certificate number be shown.],
 - b. the location,
 - c. the installation time and date, and
 - d. the removal time and date.
- 6) The 'Roadwork Speed Limit' sign is to be removed as soon as practicable after the road works have been completed.

Roadwork Speed Limit Signage When Work is Not in Progress.

Roadwork speed limits may be applied to ensure the safety of workers and reflect the safe speed of travel for the prevailing condition of the road. Council's of a Local Government Area now have the delegation to implement roadwork speed limits.

When utilising roadwork speed limits, it is imperative that these reduced speed limits only be displayed while the restriction applies and for the duration of the need. It is absolutely essential that unless the road condition warrants a reduced speed limit at the worksite, the temporary speed reduction signs are covered when work has temporarily ceased. Please refer to section 8.2 of the Roads and Traffic Authority's Traffic Control at Work Sites, version 4.0, manual for further information regarding roadwork speed limits.

Failure to follow this procedure rigorously can be expected to strongly undermine the credibility motorists' assign to temporary speed limit signage worksites. Over time this will result in a reduction in the effectiveness of worksite speed limits as a means of protecting the safety of both workers' and road users. It may also undermine the credibility of speed limits generally.

The NSW Police Service may enforce worksite speed limits, and where these have been inappropriately applied, this action may serve to reinforce the misapprehension among motorists that enforcement of speed limits is driven by motives other than safety.

Please ensure that all staffs responsible for managing roadworks are aware of their responsibility to cover temporary worksite speed limit signs in the circumstances described above.
