INTRODUCTION

Local Government is the third tier of government and is closest to the people. Liverpool City Council exists to provide a wide range of services for the benefit of its local community. In doing so, Council operates in a complex, legislative, economic and social framework. With the participation of the community, Council strives to provide services and facilities in an efficient, effective and professional manner.

In providing these services and facilities, there are a number of considerations, including:

- A large part of Council's revenue comes from ratepayers who expect a certain level and quality of service for their contribution of rates
- Council receives grants from other spheres of Government that may prescribe policies and pricing practices
- Commonwealth and State legislation are often prescriptive in relation to certain areas of Local Government.

The traditional role of councils has changed in recent times and councils now provide a wide range of physical, social and recreational services and facilities. Communities are demanding both a wider range and higher quality of services. Operating in an economic environment of tight fiscal constraint, the availability of additional funds from other levels of government has been restricted.

It is within this context that the Revenue Pricing Policy is formulated to form part of the draft Delivery Program and Operational Plan for the 2020-2021 financial year.

TYPES OF REVENUE

The funds to enable Council to carry out its works and services and provide facilities come from the following revenue categories:

- Rates
- Annual charges for services
- Fees for services
- Federal and State Government grants
- Borrowings
- Earnings from investments and entrepreneurial activities
- Other revenues, including income from the sale of assets.

In financing its works and services Council also draws on accumulated reserves.

Ordinary rates continue to be the major source of revenue for local government. The graph on the following page indicates the various sources of operating revenue received in 2018-2019 (excluding profit from sale of assets and capital grants and contributions).

Principles of efficiency, effectiveness and equity are critical to the development of the Revenue Pricing Policy.

Efficiency generally means ensuring that resources are devoted to the most valuable ends as determined by Council, whilst using as few resources as possible. It generally relates to the cost at which services and facilities desired by the community are delivered or provided.

Effectiveness relates to the satisfaction of stated objectives so that outcomes of decisions and the needs and demands of consumers are taken into consideration. Achievement is demonstrated by the provision of service standards that meet the needs of Council's customers.

Equity refers to ensuring that services are provided to those who need them, even though they may be unable to pay for the particular service.

This document provides pricing policies for rates, annual charges and fees for specific services provided by Council

Rating Categories and Structure

Categories

Council's current rating structure adheres to the requirements of the *Local Government Act 1993* which provides for all rateable properties to be categorised into one of four categories of ordinary rates as follows:

- Residential Category
- Farmland Category
- Mining Category
- Business Category

For 2020-2021 the farmland category is assessed at approximately 68 per cent of the residential rate.

The criteria in determining the categorisation of land is as follows:

Residential – includes any rateable parcel of land valued as one assessment and,

- The dominant use is for residential accommodation, or
- If vacant land, is zoned or otherwise designated for use for residential purposes under an environmental planning instrument, or
- Is rural residential land.

Farmland – includes any parcel of rateable land valued as one assessment and the dominant use of the land is for farming. The farming activity must have a significant and substantial commercial purpose or character and must be engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made).

Properties which meet this criteria are categorised as Farmland and are levied a lower rate in the dollar.

Mining – includes any rateable parcel of land valued as one assessment with the dominant use being for a coal

mine or a metals mine. There are no properties currently categorised as Mining.

Business – is rateable land that cannot be classified as farmland, residential or mining.

Land that is categorised as Business is levied at the business rate. For 2020-2021, the business rates applicable are listed in the 2020-2021 Schedules of Rates and Charges.

Additionally, each of these categories can be divided into sub-categories that are determined on the basis of:

- For the farmland category, according to the *intensity of land use* or *economic factors* affecting the land
- For the residential category, whether the land is *rural residential* land or within a *centre of population*
- For the business category, whether the land is located within a *centre of activity*.

Liverpool City Council has 15 sub-categories of Business. Those categories are detailed in the 2020-2021 schedules of rates and charges.

Structure

Ordinary rates may consist of:

1. Ad valorem rates (a rate per dollar of land value) subject to a minimum charge.
2. Base amount to which an ad valorem is added.

Liverpool City Council uses base amounts for its Residential and Farmland categories and minimums for Business.

Base amounts allow councils to charge all properties a fixed charge or levy to cover the cost of common services, as well as the basic general administration costs of council from which all properties benefit regardless of their rateable value. Base amounts are also used to “flatten” the large discrepancies of rates paid due to varying land values in a local government area. In Liverpool the current base charge is \$575 per property irrespective of its size or land value. The proposed base rate will be increased to \$583 in 2020-2021. The remaining portion of the rate is determined by the land value (ad valorem). Council may generate up to a maximum of 50 per cent of the particular rating category from base amounts. Liverpool City Council will receive approximately 49.50 per cent of its residential rates from base amounts in 2020-2021. Thus the use of base amounts gives Council greater control of its rating structure and limits the effects of rate variation from outside influences such as fluctuating land values etc.

Minimum rates rely purely on the land value of the property multiplied by an ad valorem amount. However, if the calculated amount is less than \$625 (the minimum amount being determined by the Department of Local Government), Council can charge this amount in lieu of the lower amount.

Rate Pegging

The NSW Government introduced rate pegging in 1977. Rate pegging limits the amount that Council can increase its rate revenue from one year to the next by a specified figure determined by the Independent Pricing and Regulatory Tribunal (IPART).

For 2020-2021, IPART has announced the limit by which Council's general income may be varied as 2.6 per cent.

General income comprises income from ordinary rates and special rates. It does not include income from the Domestic Waste Management (DWM) charge. It is proposed to increase the DWM charge by 2.63 per cent from \$456 to \$468 in 2020-2021 due to increased costs associated with the provision of this service.

Valuations

Rates are assessed on a rate in the dollar as a product of the land value supplied by the Valuer General. The Valuation of Land Act requires Council to assess the rates on the most recent values provided by the Valuer General. Council will use valuations as at base date 1 July 2019 to assess the 2020-2021 rates. The total land value in the Liverpool Local Government Area as at April 2019 is \$44,361,273,410.

How your rates are calculated

In determining rates payable by landowners, Council is mindful of setting rates which are as fair and equitable as possible, whilst complying with the relevant State Government legislation. With residential rates, Council uses a base amount to help even out rate increases in areas where there have been extreme variations in land values. In other words, not all your rate amount is tied to the land value of your property. As previously indicated, the base amount proposed for 2020-2021 is \$583 per property.

Your residential rate is calculated in two parts using:

1. Your land value
2. A base charge.

Here is an example of how a residential rate would be calculated in 2020-2021 for an average land value of \$508,000 at 2.6 per cent permissible increase.

| | | |
|---|-----------------------|-------------------|
| Land Value | \$508,000 X 0.001152 | \$585.21 |
| Base Amount | | \$583.00 |
| Environment Levy | \$508,000 X 0.0000436 | \$ 22.15 |
| Domestic Waste Management Annual Charge | | \$468.00 |
| Stormwater Management Annual Charge | | \$ 25.00 |
| Total Rates Payable | | \$1,683.36 |

Annual Charges (section 501)

In addition to ordinary rates and special rates, Councils may levy an annual charge for any of the following services:

- Water supply services
- Sewerage services,
- Drainage services,
- Waste management services (excluding domestic waste services)
- Any other services prescribed by the regulations

Liverpool City Council utilised annual charges for its domestic waste management service and its stormwater management service.

Special Rates

In addition to the ordinary rates, the Local Government Act makes provision for a special rate. Council may consider special rates if it wishes to finance a project that will benefit either the whole of the City or part of the City. A project may be comprised of works, services, facilities or activities.

A special rate can be levied on any rateable land that, in the Council's opinion, benefits or will benefit from the project in question, or contributes to the need for the project, or has access to the project. Council is free to levy different special rates for various projects or for similar projects in different parts of the Local Government Area.

When setting special rates for land, it is important that Council is able to define with some precision how the project will affect that land. The rate must then be applied consistently to the affected assessments. All land which benefits from the project subjected to the special rate.

A special rate may be made for, or towards meeting the cost of any existing or proposed project within any part or the whole of the Council's area. The amount of the special rate is determined according to the assessment of the relationship between the estimated cost of the activity and the degree of benefit afforded to the ratepayer by providing the activity.

Like an ordinary rate, a special rate is based on the land value of rateable properties and may consist of an ad valorem rate (which may be subject to a minimum rate) or a base amount to which an ad valorem rate is added.

If the purpose of any income to be levied by a special rate is not for water supply, sewerage charges or domestic waste management services, then the income raised will form part of Council's general income. This income will need to form part of Council's permissible general income or require IPART approval if the income exceeds the permissible limit.

RATES IN THE DOLLAR 2020-2021

IPART has determined the general rate increase for 2020-2021 at 2.6 per cent. The rate to be applied to the value of land is provided in the fourth column of the table on the following page.

The estimated permissible rating revenue for 2020-2021 is as follows:

| Description | 2020-2021 Rate Income Estimate |
|---|--------------------------------------|
| Permissible rating income from 2019 – 2020 | \$ 104,868,842 |
| 2.6 per cent rate pegging increase | \$ 2,726,590 |
| Adjustments (LV objections, catch up) | \$ 0 |
| Subtotal | \$ 107,595,432 |

The above estimate of rate revenue for 2020-2021 complies with Council permissible rate yield as approved by the Division of Local Government.

Variations will occur throughout the budget year between the estimated rate revenue indicated above and the actual income received. Reasons for variations between estimated income and actual income received include:

- Previously non-rateable properties becoming rateable during the year.
- Properties being withheld from rating, pending revised valuation particulars from the Valuer General's Office. This occurs when properties are subdivided and new valuation particulars are requested for the newly created lots. This usually results in an increase in the valuation base for the following year.
- Properties being rated for previous years upon receipt of new valuation particulars. There is a time delay associated with requesting new valuation particulars. This may result in some properties not being rated for a particular year until subsequent rating periods. This artificially inflates the rating revenue received for the year the rates are actually levied.

EL ENVIRONMENT LEVY

Applicable to all rateable properties within the Liverpool Local Government Area.

Environment Restoration Plan

In the 2006-2007 rating year, an application was made to and approved by the Minister for Local Government, for a special variation to general income to allow for an Environment Charge to be applied to all rateable assessments. The variation was sought to fund the Environment Restoration Plan and in particular to:

- Strategically address environmental issues in rural and urban areas of the City
- Support the local environment groups in restoring sites around the Liverpool Local Government Area

The key deliverables of the Environment Restoration Plan include:

- Protecting and restoring Liverpool's local endangered ecological communities and other bush land
- Building community networks and partnerships
- Delivering environment education to the Liverpool community
- Supporting environmental projects across Liverpool
- Erection of fences and access paths for protection of bush land
- Improving the City's image
- Cleaner waterways

The general income to be raised by the Environment Charge for 2020-2021 is approximately \$1,808,000.

Waste Management

The Local Government Act contains provisions that encourage user pays revenue raising, particularly in relation to waste management services. These provisions work in conjunction with the State Government's objective of reducing the levels of waste output. The Local Government Act defines the following categories of waste management:

- Domestic waste management services
- Waste management services
- Domestic recycling services
- Other waste management services

Domestic waste management services generally relates to domestic garbage. Waste management services relate to trade waste, business waste or direct disposal of waste at Council's waste depot. Domestic recycling services relates to recycling from the domestic stream.

Domestic garbage and domestic recycling are currently carried out by contractors as part of the collection service.

The provisions of the Act and the guideline from the Division of Local Government encourage the user pays revenue raising methods. It also requires that councils

separately account for each of the waste collection and disposal methods with appropriate revenue sources being charged in accordance with the costs relating to that service. In the past, Council has separately accounted for the income and expenditure for both the collection and disposal of garbage.

There are two methods of charging for waste management services: an annual charge or a user charge based upon the volume of waste disposed of or collected. Council's experience in relation to the waste management services indicates that charging by volume does not support an effective waste management service. The Revenue Pricing Policy for waste management services is therefore based upon the setting of annual charges for each service.

Accountability for revenue raising for the waste management service provided by Council is set down in the Local Government Act, limiting revenue to reasonable costs which are required to provide the service.

Council expects to provide domestic waste services to 67,475 households within its Local Government Area next financial year. In 2009, Council introduced a new collection and disposal system which provides the following services:

- Single Unit Dwellings - a weekly collection of a 140 litre bin for garbage and an alternate week collection of a 240 litre bin for recyclables and a 240 litre bin for garden waste.
- Rural area with lot sizes greater than a hectare – a weekly collection of 240 litre bin for garbage and a fortnightly collection of 240 litre bin for recycling.
- Multi-Unit Dwelling – A combination of shared 240 litre garbage and 240 litre recycling bins collected once, twice or three times a week depending on the number of bins at particular unit blocks. Also, optional 240 litre bin for garden waste provided on request.

As in previous years, and since the introduction of the Local Government Act 1993, Council is required to levy a waste management availability charge on properties that do not utilise the service but are located within the service area, to reflect the cost of making the service available to those properties. Council has determined that for vacant land availability charge of \$70 will apply. For all other properties, the proposed waste management charge will be \$468 (\$456 – 2019/2020).

Under the Local Government Act, properties identified as being used predominantly for business purposes, are required to be levied a waste management charge as distinct from the domestic waste service. Council does not provide waste management services for non-domestic properties.

Stormwater Management Service Charge

In April 2006 the State Government approved the introduction of a package of sustainable stormwater funding and related arrangements to support councils in undertaking stormwater management. An amendment in 2005 to the Local Government Act 1993 allows councils the option to make a charge outside their capped rate arrangements for the provision of stormwater management services.

Council first introduced the stormwater management service charge for residential and business properties in 2008-2009. This charge is intended to ensure that maintenance, renewal and improvements to the Liverpool's stormwater system are adequately funded.

Much of Council's stormwater system was constructed more than 40 years ago and will require increasing maintenance and repair in the next few years. In addition, increasing urbanisation and intensification of land uses has increased stormwater flows and the stormwater system requires upgrading to control the flows. In newer areas, contemporary stormwater management systems include detention basins and wetlands. These systems also require enhanced maintenance to function safely and effectively.

The charges for 2020-2021 are:

- \$12.50 p.a. for each rateable residential strata lot
- \$25.00 p.a. for each rateable residential lot
- \$12.50 p.a. for each rateable business strata lot
- \$25.00 p.a. per business property less than 1,500sq.m
- \$100.00 p.a. per business property between 1,500sq.m and less than 6,500sq.m
- \$250.00 p.a. per business property between 6,500sq.m and less than 21,000sq.m
- \$1,300.00 p.a. per business property greater than 21,000sq.m

It is anticipated the charge will raise approximately \$1.6 million in 2020-2021. All funds collected must be applied to stormwater management in accordance with the regulations. Funds will be accounted for separately and an annual report outlining the works undertaken during the year will be compiled at year end.

Pensioner Concessions

Concession on the rates and charges levied are available to eligible pensioners. In excess of 8,500 eligible pensioners receive concessions on their annual rates and charges. There are two forms of pensioner concessions – those that are mandatory and those that are voluntary. The former is available to eligible pensioners to a maximum of \$250 and is funded by the State Government. The latter is available to eligible pensioners for the amount of \$100 and is funded by Council.

Liverpool City Council is proposing to continue to provide the additional rebate to all eligible pensioners as at 30 June 2005. However, from 1 July 2005, no additional rebates are being provided to new eligible pensioners.

The budget provision for concessions for the 2020-2021 year is \$1,900,000 (State Government funded rebates) and \$290,000 (Council funded rebates). The latter is expected to reduce over time by approximately \$25,000 pa.

The Local Government Act provides for pension rebates of up to 50 per cent of the aggregated ordinary rates and domestic waste management service charges, to a maximum of \$250. Under the State's mandatory Pensioner Concession Scheme, the State Government reimburses Council 55 per cent (up to \$137.50 per property) of the rates and charges written off under the provisions of the Act. Council funds the remaining 45 per cent (up to \$112.50).

FEES AND CHARGES – PRICING POLICY

The following pages make up the schedule of Statement of Revenue Policy for Council products and services.

Goods and Services Tax (GST) of 10 per cent will be payable on some services provided by the Council. In general, GST will not be payable on regulated Statement of Revenue Policy, unless contestable. Statement of Revenue Policy regulated under the Local Government Act include planning and development fees, zoning, development application fees and dog registration fees. GST will be generally payable on non-regulated fees unless a specific exemption applies. This document highlights where GST is payable, exempt or is not applicable.

Non-regulated, all Statement of Revenue Policy have been determined in accordance with the Pricing Policy (refer overleaf) adopted by Council and are subject to review. Costing reviews will be conducted throughout 2020-2021 for all Council services and the Statement of Revenue Policy will be amended in light of the results. This policy recognises that a variety of pricing structures are appropriate for the products and services provided by Council which will result in Statement of Revenue Policy either recovering the full cost of providing the service or may contain an element of community service obligation.

The fees detailed in the Schedule are effective from 1 July 2020.

****Note: GST treatment and associated tax codes are subject to change pending receipt of Tax ruling for Council's Statement of Revenue Policy.**

Pricing Policy 2020-2021

Liverpool City Council has adopted six categories of pricing ranges in order to reflect the cost of providing each service.

Below are the listed categories with a brief description of each one.

| Pricing Policy | Code | Description |
|-----------------------|------|---|
| Regulated | R | These fees are charged by Council under relevant Acts and Regulations. Some of these fees have a prescribed maximum amount. |
| Zero Cost Recovery | O | Community benefit which is minor and any cost recovery would be impractical as revenue collected for this service would be minimal. |
| Partial Cost Recovery | P | Price set is to make a minimal contribution towards the cost of providing the service. This pricing policy takes into consideration social, economic and community welfare issues in providing the service. |
| Direct Cost Recovery | D | Fee set to recover the direct cost associated with providing the service. |
| Full Cost Recovery | F | Fee set is to recover the full cost of providing the service including contributions towards the replacement of the assets which are used in providing this service |
| Market Pricing | M | Fee set to attract usage in order to cover costs but also with a view to generating additional funds. Pricing is structured around market forces. |

GST Disclaimer

Liverpool City Council reserves the right to amend any Statement of Revenue Policy without readvertising with regard to any changes in the GST Legislation. All efforts have been made to adhere to GST legislation; however, in the event that GST has been applied incorrectly the relevant fee or charge will be changed by the appropriate amount.

'GST' entries in the following tables reflect whether or not the applicable fee is subject to GST or not. Items may be taxable and subject to GST. Items with status other than taxable are exempt under various Divisions of the GST Act 1999, for example Division 81 (D81) and other determinations issued by the Treasurer.

City Presentation

City Works

Maintenance Planning

Restorations, Roads and Footpaths

- All fees are payable in advance. Dilapidation / Damage Inspection Fees are to be paid at the time building plans are submitted, i.e. at the same time the building fee is paid.
- In the case of road openings where no building plans are submitted, the fees are to be paid prior to any road openings being made.
- The fee payable will be assessed by the City Maintenance and / or Transport Department according to the Schedule of Fees.
- The road opening application fee payable is for the issue of a Road Opening Permit and usually will not cover the cost of restoration. Restorations will be assessed by Council prior to commencement of work according to Council's schedule of restoration rates and paid prior to issue of road opening permit. Additional charges for restoration will be measured on completion.
- No bitumen sealed, concrete or asphalt pavements shall be opened without first obtaining written approval from Council. Wherever possible, all pipes are to be placed under pavements by boring or trench less technology.
