

# ST ANDREWS PARK, CASULA LOCAL PARK CONSTRUCTION - Draft Concept Plan

Proposed design in surrounding context

# ST ANDREWS PARK, CASULA LOCAL PARK CONSTRUCTION - Draft Concept Plan

## LEGEND

- 1 New 2.0m wide concrete footpath with new kerb ramp.
- 2 New driveway with kerb layback for maintenance vehicle access.
- 3 New park entry statement with garden bed, bollards, boulders and park sign.
- 4 First tiered level with concrete paving, low sandstone log wall and lounge seats. A 1.5m wide concrete footpath with 1:20 slope to connect to the second tiered level.
- 5 Second tiered level with new children play equipment on rubber safety surface, concrete retaining wall, park seats and picnic settings on concrete paving. A set of concrete steps to connect to the third tiered level.
- 6 Third tiered level with picnic setting on stenciled concrete paving, as well as stepped garden bed defined by curved concrete seating wall.
- 7 New 1.5m wide footpath with balustrade, retained by sandstone log wall.
- 8 Natural trail with stepping stones and steps to connect first and second tiered levels.
- 9 New garden beds with plants and sandstone boulders to alleviate steep slope.
- 10 Mulched area underneath existing trees.
- 11 New shrubs and grass planting to form vegetated swale along back fence.

Sun lounge seats on first tiered level

Terraced garden bed with concrete wall

Sandstone logs to retain garden beds

Example of vegetated swale
